Scheduling Notes

Meet five times per year: August, October, January, March and May

Do not meet in July and December (scheduling challenge).

Each bond program will have all issuances in the same appearance on the CGOBOC agenda– eg all Parks bonds all years together

Group bond programs together with like ones – eg Road Repaving together with Transportation

Each bond program to make a full presentation once a year

Each bond program will have a liaison report on the meeting nearest six months from their full presentation date. For that meeting, the CGOBOC liaison will report, and the bond program manager will be asked to attend in case of questions or comments.

Whistleblower Program to report twice a year

City Services Auditor to report twice a year, and consult CGOBOC during its workplanning
